Heating

Type: Floor heating

The floor heating system is managed directly through the *DOVIT* panel, allowing you to set the desired temperature for the environment.

For the bathroom, the temperature can also be adjusted directly via the *DOVIT* panel.

DOVIT Screen: Main Functions The *DOVIT* panel allows you to: • Adjust the overall temperature. • Turn lights on and off. • Open doors.

To access the panel, use the user code **1234**.

For more significant temperature changes, please contact our office via WhatsApp or phone.

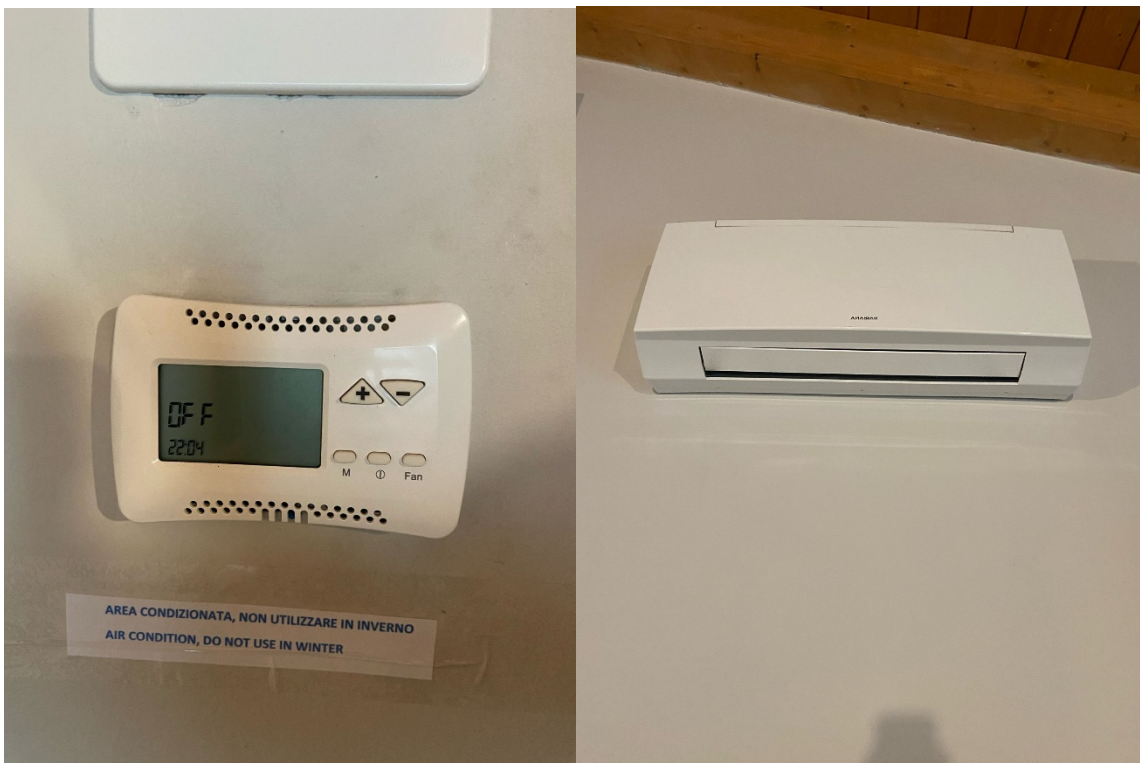

Air Conditioning

There are several air conditioners in the home, adjustable via the control panel shown in the photo.

- To set the snowflake mode: Press the “M” button and then use the +/- buttons.
- To turn on the air conditioners: Press the small central button at the bottom.
- To adjust the temperature: Use the +/- buttons.
- To regulate the air intensity: Press the “fan” button.

Note: The air conditioner produces only cool air and should not be used during winter.

Skylights

The skylights can be opened and closed at will using the remote controls located in the bedroom.

Electrical Panel

Location: Wall in the corridor facing the bedroom.

Coffee Machine

Nespresso: Turn on the coffee machine by pressing the cup button near the reservoir.

When the light stops flashing, the machine is ready to brew coffee. Place the cup under the dispenser and press the cup button to start brewing.

The process will stop automatically.

Induction Hob

Turn on the hob by pressing the power button. Place a pot or pan on one of the flat burners, activating the heat. Only the area beneath the cookware will heat up. Select the desired heat level.

If a cooking zone is activated without suitable cookware, or if the cookware is made of inappropriate material or dimensions, the power level indicator will start flashing. To avoid this, use appropriate cookware.

Child Lock (padlock icon): Activate or deactivate the child lock by pressing the padlock button for about 4 seconds; when activated, the padlock symbol will appear on the display.

If the controls don't work and the hob is locked, disconnect the power for 30 minutes, then reconnect and try again. The switch for the hob is located behind the microwave oven.

Trash Disposal

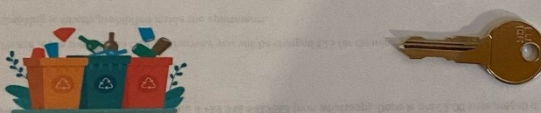

Guests are kindly requested to sort their waste and dispose of it in the appropriate bins located in front of the entrance (key provided). Pickup days are listed on the sheet in the kitchen.

It is strictly forbidden to leave trash outside the bins, except for plastic items.

Bene39
Apartments

Gentili Ospiti,
siete pregati cortesemente di fare la raccolta differenziata e buttare la pattumiera all'interno degli appositi bidoni davanti all'ingresso (è fornita la chiave).
È severamente vietato lasciare la spazzatura fuori dai bidoni, ad esclusione della plastica.

Dear Guests,
You are kindly requested to separate waste collection and throw the dustbin into the appropriate bins in front of the entrance (the key is provided).
It is strictly forbidden to leave rubbish outside the bins, except for the plastic.
