## Induction Hob

- Turn on the hob by pressing the power button.
- Place the pot or pan on one of the flat burners, activating the hob's heat.
- When the coils are activated with the pot placed on top, only the surrounding area of the cooktop being used will heat up.
- Select the heat level.
- If a cooking zone is turned on without a pot, or if the pots used are of unsuitable materials or incorrect dimensions, the corresponding power level indicator will start flashing. To avoid this, use a suitable pan.
- **Child Lock Warning (padlock symbol)!** To activate and deactivate the child safety lock, hold down the button with the padlock symbol for about 4 seconds; when the lock is active, the same symbol appears on the display.
